Program Plans and Text Notifications	Early Fall	In Sprint 16 we introduced two new applicant questions: Program Plans and Text Notifications. The Program Plans question provides visibility into an applicant's intentions, helps explain why some applicants don't apply, and identifies candidates to target for Reminder Email/SMS campaigns. The Text Notifications question allows an applicant to opt into text messaging for communications from the CAS and programs (programs may use this information to send text messages outside of the Applicant Portal). Data from both questions will be available in WebAdMIT in early fall, where Admissions Users may view, list, and export this information.
