

Release Notes

About These Release Notes

This document provides a summary of the new features and enhancements available in the Sprint 10 release. If you have any questions about these features, please contact your Account Manager.

Table of Contents

NEW FEATURES AND ENHANCEMENTS	2
Interview and Assignment Dates Searches Update	2
Updated Dates on Education Panel.....	3
Manual Designations No Longer Available for In-Progress Applicants	3
Puerto Rico Added to State/Province Field	3
RESOLVED ISSUES	4
WebAdMIT.....	4
Applicant Portal	4

New Features and Enhancements

Interview and Assignment Dates Searches Update

In this release, we made it easier to search for specific interview and assignment dates in WebAdMIT. Now, when you search by **Interview Date** on the **Search Interviews** page or by **Due Date** on the **Search Assignments** page, the search only returns results for that date. Previously, the search returned results for all interviews or assignments on and before that date.

Updated Dates on Education Panel

Dates Attended and **Degree Date** now display in “Month Year” format on the **Undergraduate/Graduate Schools** sub-panel on the **Education** panel in WebAdMIT. Previously, a “Day” value was added to these dates even though applicants only entered month and year in the Applicant Portal.

School	State	Country	Primary	Program Type	Dates Attended	Degree(s)	Degree Date	Major(s)	Minor
BOSTON UNIVERSITY	MA	United States		Graduate	Sep 2014 - May 2015	Master of Science	May 2016	Other Major	No Minor
UNIVERSITY OF CALIFORNIA - SAN DIEGO	CA	United States	✓	Undergraduate	Aug 2007 - Jun 2012	Bachelor of Science	Jun 2012	Biomedical Engineering	No Minor
DE ANZA COLLEGE	CA	United States		Junior College	Jun 2008 - Aug 2008	No Degree Expected		No Major	No Minor

The “Day” value will continue to be included in the List Manager and Export Manager to facilitate queries for “Earlier than” and “Less than” date ranges and to allow date formats to be included in files generated for ERP integrations.

Manual Designations No Longer Available for In-Progress Applicants

If your CAS uses Manual Designations in WebAdMIT, then this enhancement applies to you. WebAdMIT now prevents the creation of Manual Designations for In-Progress applicants. This helps avoid potential issues with applicant statuses.

Puerto Rico Added to State/Province Field

Puerto Rico is now an available option in the **State/Province** field in the Configuration Portal.

Resolved Issues

WebAdMIT

The following issues are resolved in WebAdMIT as part of the Sprint 10 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. An issue where users who only had the “Access CAS Configuration Portal” permission in the **Management** panel could still access Prerequisite GPAs was resolved. (WA-4758)
2. Custom Date fields now display in the correct format. Previously, dates in MM/DD/YYYY format displayed in DD/MM/YYYY format. (WA-4757)
3. The **Is Null** option in the List Manager now properly recognizes custom fields that were populated and then later blanked out. (WA-4719)

Applicant Portal

The following issues are resolved in the Applicant Portal as part of the Sprint 10 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. An issue that prevented users from downloading the full application PDF (via the Applicant Portal and WebAdMIT) when the applicant did not enter optional Family Member residency information was resolved. (UNCAS-12807)
