New Features and Enhancements

Academic History Enhancements

The following enhancements are available for the **Academic History** quadrant of the Applicant Portal.

Assign College Courses to General Education Categories

Note that this new functionality is a configurable feature option available for the 2018-2019 cycle. Depending on your cycle dates, this feature may be available in the 2017-2018 cycle. Contact your Account Manager if you have any questions.

In this release, we introduce the ability for applicants to match their courses to General Education category requirements. General Education requirements typically refer to sets of courses that all students, regardless of major, must complete. This feature is particularly useful for evaluating undergraduate transfer applicants who already completed some college-level coursework.

If you choose to enable this functionality, a new **General Education** section will appear in the **Academic History** quadrant where applicants can match courses entered in the **Transcript Entry** section to your General Education subjects. Only courses that meet the minimum grade requirement are available for selection. Subjects and minimum grade requirements are determined by the CAS.

Subject	Selected Courses
Critical Thinking	Computers (B)
Math Concepts/Quantitative Reasoning	Math (B)
Oral Communication	Please Select a Value
Written Communication	English 101 (B)

Admissions users can see which courses applicants associated with subjects on a new **General Education** sub-panel on the **Education Panel** in WebAdMIT. All fields can be exported.

Status	Subject	Prefix	Title	Grade
Complete	Critical Thinking	Bio 101	Introduction to biology	B-
Complete	Math Concepts/Quantitative Reasoning	MATH 101	Introduction to Math	A-
Complete	Oral Communication	COM 101	Communication	A-

Indicate Transferable College Courses

Note that this new functionality is a configurable feature option available for the 2018-2019 cycle. Depending on your cycle dates, this feature may be available in the 2017-2018 cycle. Contact your Account Manager if you have any questions.

In this release, we introduce the ability for applicants with previous college experience to indicate if their courses are transferable to the programs they're applying to.

If you choose to enable this functionality, the **Transcript Entry** section will include a new **Transferable** checkbox where applicants can indicate their transferable courses.

Updated High Schools Attended Section

Note that this new functionality is a configurable feature option available for the 2018-2019 cycle. Depending on your cycle dates, this feature may be available in the 2017-2018 cycle. Contact your Account Manager if you have any questions.

We also made enhancements to the **High Schools Attended** section. Prior to this release, applicants could enter one high school. Now, your CAS can determine the maximum number of high schools that applicants can enter. Applicants must also identify the high school they graduated from.

Additionally, we integrated with the College Entrance Examination Board (CEEB) for our high school lookup. Now, as applicants type their high school, the system dynamically generates a list of high schools the applicant can select from a database of over 25,000 high schools.

There is also a new option for homeschooled applicants to select and add details about their homeschooling program.

Additionally, international applicants can enter information about their Academic Performance and Degree/Diploma.

In WebAdMIT, the **High School** sub-panel on the **Education** panel will display all applicant-entered high school information.
