New Features and Enhancements

Applicant Portal Enhancements

The following enhancements are available for the Applicant Portal as part of Sprint 18.

Dynamic Transcript Section on Check Status Page

The **Check Status Page** now *only* displays a Transcript section if **Official Transcripts** are required by the CAS. For CASs that require unofficial (applicant uploaded) transcripts, or no transcripts at all, the **Check Status Page** will not display a Transcript section.

The screenshot shows the Applicant Portal interface. At the top, there are navigation tabs: "My Application", "Add Program", "Submit Application" (with a red notification icon), and "Check Status" (with a dropdown arrow). Below the tabs, the "Overall Status" section is visible. Underneath, there is a "Transcripts" section with a dropdown arrow and a status indicator "Arrived 1 of 2". The transcript section contains a table with three entries:

Transcript Information	Requested on	Status
ACADEMY OF FOREIGN TRADE - MOSCOW August 2006 - May 2015	08/11/17	Not Received
OHIO STATE UNIVERSITY September 2011 - May 2016	05/03/17	Received
unlisted canadian May 2014 - March 2016	08/11/17	Not Received

Configuration Portal Enhancements

The following enhancements are available for the Configuration Portal as part of Sprint 18.

Summer Added to Options for Program Start Term

The **Configuration Portal**'s Homepage settings now allow users to select "Summer" as a Start Term. This has been added in addition to the previously existing "Summer 1" and "Summer 2" options.

The screenshot shows the Configuration Portal settings page. It features several input fields and a dropdown menu. The "Open Date" field is set to "04/27/2017". The "Deadline" field is set to "09/01/2017". Below these fields, there are radio buttons for "Deadline Display Date": "Show Deadline" (selected), "Choose Date", and "Rolling". To the right, the "Start Term" dropdown menu is open, showing the following options: "Summer 1", "Please Select", "Winter", "Spring", "Summer 1", "Fall", "Interim", "Summer 2", and "Summer" (highlighted in blue). Below the settings, there is a section for "Additional Information".

WebAdMIT Enhancements

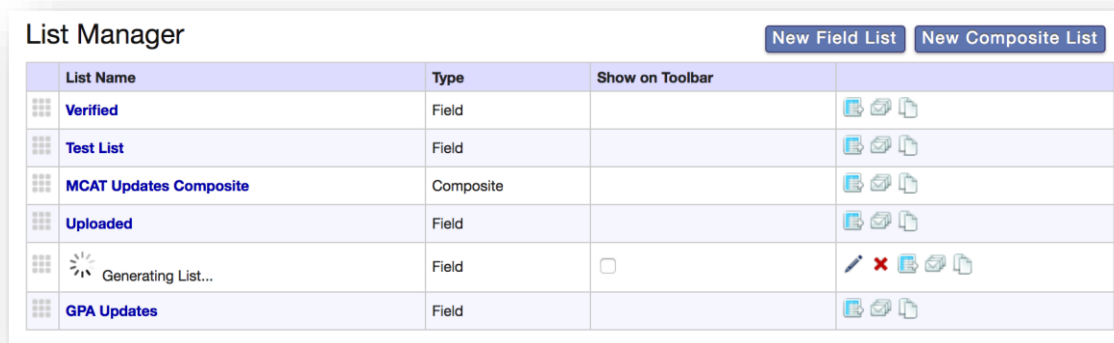

The following enhancements are available for WebAdMIT as part of Sprint 18.

Work Group Templates Included in Transfer Settings

We are happy to announce that Work Group templates are now included in the Transfer Settings feature. This feature enables users to carry forward active WebAdMIT templates from the previous cycle into the new one.

Performance Enhancements Added to List Manager

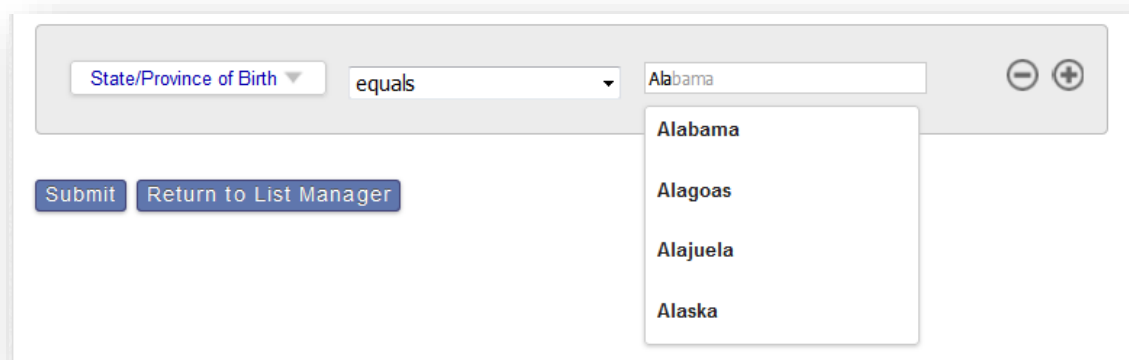

To produce lists more efficiently, several enhancements have been made to the **List Manager**. As part of these updates, lists now load in the background, so a “Generating List” indicator appears after a list has been configured. Once the list is ready, the page refreshes to display the results.

List Name	Type	Show on Toolbar	
Verified	Field		  
Test List	Field		  
MCAT Updates Composite	Composite		  
Uploaded	Field		  
 Generating List...	Field	<input type="checkbox"/>	  
GPA Updates	Field		  

List Manager Now Offers Type Ahead Searching

When using the **List Manager**, applicable text fields will offer real-time suggestions after users begin typing in the criterion field. If there are many options available to complete the criterion, this Type Ahead feature allows for more efficient use of the **List Manager**.

Updated Master College Codes List

Please note that our College Code list has been updated. This list provides a lookup of all available College Codes when working with Lists or Exports in WebAdMIT. You may access the latest version of this list at any time by navigating to the [Documentation section](#) of the [WebAdMIT Help Center](#).

Program Plans and Text Notifications	Early Fall	<p>In Sprint 16 we introduced two new applicant questions: Program Plans and Text Notifications. The Program Plans question provides visibility into an applicant's intentions, helps explain why some applicants don't apply, and identifies candidates to target for Reminder Email/SMS campaigns. The Text Notifications question allows an applicant to opt into text messaging for communications from the CAS and programs (programs may use this information to send text messages outside of the Applicant Portal). Data from both questions will be available in WebAdMIT in early fall, where Admissions Users may view, list, and export this information.</p>
