New Features and Enhancements

Applicant Portal Enhancements

The following enhancements are available for the Applicant Portal as part of Sprint 23.

New Optional versus Required Field Indicators

Note that this enhancement is immediately available and does not require any configuration.

All fields in the application now indicate whether they are required or optional.

- All required fields have a red asterisk (*) to the left of the field name.
- All optional fields have the “optional” tag removed from the right of the field name.
- The disclaimer “* Indicates required field” is added to the top of pages.

The screenshot shows the 'Experiences' section of an application. On the left, a sidebar indicates that 4/4 sections are completed, with 'Experiences' highlighted. The main content area is titled 'Add Your Experiences' and includes a close button (X). Below the title, there is a paragraph of instructions: 'Update your experiences any time prior to submission. After submission, you can add more experiences. However, you cannot update or delete completed experiences. Refer to the Checklist on the program materials section of the application to determine if experiences are required for your program application.' A legend indicates that a red asterisk (*) denotes a required field. The form contains two sections: 'Experience Type' with a dropdown menu labeled 'Type' and a red asterisk, and 'Organization' with three input fields for 'Name', 'Address', and 'Address 2', each with a red asterisk.

Configuration Portal Enhancements

The following enhancements are available for the Configuration Portal as part of Sprint 23.

New Optional versus Required Field Indicators

Note that this enhancement is immediately available and does not require any configuration.

When users create custom questions in the Configuration Portal, the questions follow the new optional versus required field indicators.

- All required fields have a red asterisk (*) to the left of the field name.
- All optional fields have the “optional” tag removed from the right of the field name.

Users can see this new format in the Questions preview, found under the **Home** tab.

WebAdMIT Enhancements

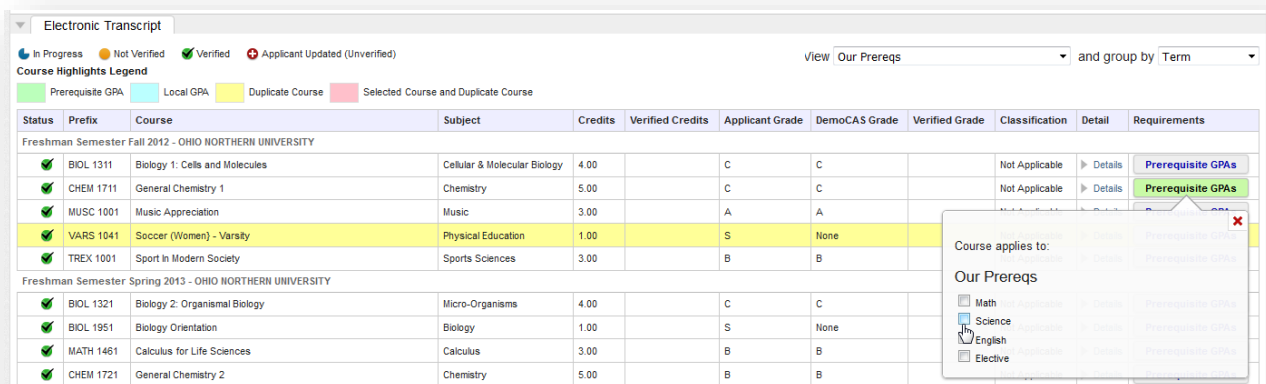

The following enhancements are available for WebAdMIT as part of Sprint 23.

Modify Applicant-Selected Prerequisites

Note that this enhancement is immediately available for CASs that collect prerequisites built in the Configuration Portal. This feature does not require any configuration.

We are excited to announce that admissions users can now change an applicant’s selected prerequisites in WebAdMIT. After an applicant submits to a program, admissions users can remove and/or add courses that the applicant matched in the Applicant Portal.

Users can change the selected courses under the **Electronic Transcript** panel. This process is the same as matching courses to a user-facing [Prerequisite GPA template](#).

Status	Prefix	Course	Subject	Credits	Verified Credits	Applicant Grade	DemoCAS Grade	Verified Grade	Classification	Detail	Requirements
Freshman Semester Fall 2012 - OHIO NORTHERN UNIVERSITY											
✓	BIOL	1311	Biology 1: Cells and Molecules	4.00		C	C		Not Applicable	Details	Prerequisite GPAs
✓	CHEM	1711	General Chemistry 1	5.00		C	C		Not Applicable	Details	Prerequisite GPAs
✓	MUSC	1001	Music Appreciation	3.00		A	A				
✓	VARS	1041	Soccer (Women) - Varsity	1.00		S	None				
✓	TREX	1001	Sport in Modern Society	3.00		B	B				
Freshman Semester Spring 2013 - OHIO NORTHERN UNIVERSITY											
✓	BIOL	1321	Biology 2: Organismal Biology	4.00		C	C				
✓	BIOL	1951	Biology Orientation	1.00		S	None				
✓	MATH	1461	Calculus for Life Sciences	3.00		B	B				
✓	CHEM	1721	General Chemistry 2	5.00		B	B				

After the user adjusts the prerequisite courses, the **Prerequisite GPA** will automatically recalculate. The Prerequisite Coursework Report in the **Report Manager** also pulls the user-adjusted courses.

Applicants will not see any changes made to their chosen prerequisite courses by admissions users. Users can view the originally selected prerequisites by downloading the full application PDF.

Coming Soon!

Please review the list of upcoming events, including scheduled downtime/maintenance, product updates, and regional training opportunities.

Event	Date	Details
Updates to Lookup Tables	Early Winter	<p>Many fields in the application contain predefined answer values that users can select; for example, the Country and College Name fields both have predefined answer values. These values are housed in “lookup tables,” which are updated twice a year. The next update is scheduled for early winter.</p> <p>To find which lookup tables will be updated, and the changes in the predefined answer values, you can refer to your Custom Export Field Layout file, accessible under Support Resources in WebAdMIT.</p>
Updates to College Coursework Credit Value Entries	Winter	<p>For CASs that collect college coursework, the Applicant Portal will be updated to allow applicants to enter course credit values in one numeric field. This field will also limit applicants from entering more than two digits after a decimal.</p> <p>Currently, applicants are required to enter course credit values in two fields: a numeric field for the whole course credit and a drop-down including preset fractional values.</p>

Resolved Issues

WebAdMIT

The following issues were resolved in WebAdMIT as part of the Sprint 23 release. The codes in parentheses correspond to the identifiers in our issue tracking system.

1. The new WebAdMIT interface now has an updated display in the **Electronic Transcript**. (WA-5015)
2. A display issue marking prerequisites as fulfilled when courses were not matched was resolved. (WA-5059)
3. An issue deactivating the **Date Range** options for certain fields in Scoring was resolved. (WA-5100)
4. An issue preventing applicants from appearing in WebAdMIT due to fee waiver data was resolved. (WA-5175)
