New Applicant Last Updated At Field and Operator	2
WEBADMIT TRAINING RESOURCES	2

New Features and Enhancements

To minimize disruption to your workflows, the New Lookup Table Values enhancements for the Applicant Portal and WebAdMIT are undergoing additional comprehensive testing and will be available in a later release.

WebAdMIT Enhancements

The following enhancement is available for WebAdMIT as part of Sprint 25.

New Applicant Last Updated At Field and Operator

Note that this new functionality will automatically be available for the 2018-2019 cycle. This feature can be activated for the current cycle upon request. It is immediately available for Cal State Apply. Contact your Account Manager if you have any questions.

A new field, **Applicant Last Updated At**, is now included in the List Manager under the **Applicant Updates** field category. It also features a new operator, “within ... last hours.” Users can enter numbers up to 24 in the criteria field.

WebAdMIT Training Resources

There are many training offerings available to help new users get up to speed on WebAdMIT. These are also helpful for experienced users who may need a refresher.

In 2017, we offered specialized in-person trainings and webinars for best practices in WebAdMIT. In 2018, we plan to continue this, as well as launch new, specialized trainings and webinars. To find and register for these, visit the WebAdMIT Training [site](#).

Event	Date	Details
Updates to College Coursework Credit Value Entries	Winter	<p>For CASs that collect college coursework, the Applicant Portal will be updated to allow applicants to enter course credit values in one numeric field. This field will also limit applicants from entering more than two digits after a decimal.</p> <p>Currently, applicants are required to enter course credit values in two fields: a numeric field for the whole course credit and a drop-down including preset fractional values.</p>
