RELATED IDEAS

Include workgroups into the settings transfer

Increase size of interview type box

Delete prior cycle dates from interview dates menu

Add the lecture and lab column to the prereq section (black section)

## Transfer Settings Only Available to WebAdMIT Administrators

This change would prevent lower-level users from either completing transfer settings or dismissing it. It will allow the WA Admins at programs to have tighter control over what is in their system, what is carried forward, and what is updated/edited for the new cycle.

Client Interest	OPTOMCAS, PTCAS, RF-PTCAS, VMCAS
I would like this...	Next cycle launch

Should this perhaps be further restricted to Institution Managers?

# ●●●●● Personal Statement Question on PDF

## PERSONAL STATEMENT

Every person has a story that has led them to a career. Since there are a variety of health professions that "help" others, please go beyond your initial interaction or experience with physical therapy, and share the deeper story that has confirmed your decision to specifically pursue physical therapy as your career.

**Answer:** My desire towards wanting a career as a Physical Therapist comes from the ability you have to directly impact someone's life and improve their quality of life. I personally believe that the freedom of movement is one of the most vital components in one's life that allows you to pursue your dreams and have an amazing life. As a Physical Therapist you are given the honor and duty to aid in a person's recover so that they can have the freedom and ability to return to doing what they are passionate about. This belief and passion I have in physical therapy has come from my interning experiences, the joy and happiness I saw on patients faces when they were able to return fully to daily life and helping others reach that level of joy and happiness is what I want to devote my life's work to.
